Welcome

Getting real - let's not mess about here...

You're here because you want to make serious money online - not pocket change.

Stephan Iscoe, ProfitSystemCoach.com

And you're sick of being told you "just need to hustle harder" or "manifest your dreams" while everyone else seems to be quietly cleaning up.

The truth?

\$1,000 days are *absolutely possible* - if you follow a simple, proven process.

And you don't even need to be tech-savvy or have a huge audience to pull it off.

Here's the exact 3-step system to stack \$1,000 days - and keep stacking them.

Step 1: Pick a Winning Product

This is where most people make mistakes.

They pick a low-ticket, low-quality product and wonder why they're working all month for pocket change.

If you want big commissions, you need to promote products that pay well and actually help people.

What makes a winning product?

- 4 Pays at least \$250 per sale (ideally \$500 to \$1,000)
- 4 Already proven to sell in the market
- 4 Backed by a reputable creator or company
- 4 Solves a real problem for a specific audience

Where to find them:

- **Affiliate Networks:** Look for high-ticket offers in evergreen niches like health, wealth, or relationships on platforms such as ClickBank or JVZoo.
- **Direct Partnerships:** Many course creators, coaches, and companies offer affiliate programs. Reach out and ask.
- **Personal Experience:** If you've used a product or service and it delivered results, that's a great option to recommend.

Tip:

If you wouldn't recommend it to a friend or family member, don't promote it. Always choose quality.

Step 2: Set Up a Simple Funnel

Once you've chosen your product, the next step is to build a simple system called a funnel that turns strangers into buyers.

A funnel allows you to:

- 4 Collect emails
- 4 Deliver value
- 4 Present your offer multiple times

Basic funnel structure:

Opt-In Page

A clean, clear landing page that offers something valuable (like this guide) in exchange for an email address.

Example: "Get the 3-Step Guide to \$1,000 Days Free."

Thank-You Page

After they opt in, they're immediately shown:

- A link to what they signed up for
- A brief introduction to the affiliate offer
- Optional: a short video explaining the next steps

Email Sequence

Follow up with a series of emails that:

- Deliver more value and build trust
- Share stories, insights, and proof about the product
- Answer common questions and overcome objections
- Remind them of the offer regularly

Tip:

Keep it simple. A funnel only needs to do its job - collect leads and make sales - not win design awards.

Step 3: Get Eyes On It (Traffic)

With the funnel ready, the final step is to send people to it.

This is where consistent effort pays off.

Here are 3 easy ways to get started:

1. Organic Social Media

Post value-driven content on platforms like Facebook, Instagram, TikTok, or LinkedIn.

Use stories, tips, and questions to attract people.

Example: "Here's how I made my first \$500 online and how you can too. Grab the guide here: [link]."

2. Paid Ads

If there's a budget, paid ads can bring fast, targeted traffic.

- Facebook and Instagram ads: Broad, effective, and easy to start.
- YouTube ads: Great if you're comfortable on video.
- Email solo ads.
- Start small, even \$5 to \$10 per day, to test what works.

3. Content Marketing

For those who enjoy writing or creating videos:

- Blog posts or articles that solve problems
- YouTube tutorials showing parts of the process
- Answering questions on forums, Quora, or niche Facebook groups

Tip:

Focus on one method at first. Master it before adding another.

Final Checklist

Here's a recap:

- 4 Choose a high-quality, high-commission product
- 4 Build a simple funnel to collect leads and present the offer
- 4 Drive consistent traffic to your funnel

That's it.

No gimmicks, no complicated tech, no overnight miracles. Just a straightforward process that works if you work it.

Start with what you have, keep it simple, and take action today.
